

2019 Max Hamilton Competitive Shoot Rules and Format

Scoring:

An Excel spreadsheet will be used for recording and calculating total competitive scores. An archer must complete the morning and afternoon flight in the same class to be eligible for a trophy. The archer with the highest score will be the winner in the applicable class. If a tie exists, the archer with the highest total number of 12s will win. However, if the applicable archers still finish with same amount of 12's, then 10's will be used and then 8's. If a tie still exists, the host club may declare a shoot-off. A shoot-off will consist of a 3D animal set at an unknown distance within the limits of the relevant class. The archer with the highest score will be declared the winner. This process will be repeated until a winner is declared. - If only one archer is present at the shoot-off, he or she will be declared the winner.

Courses:

All classes will shoot two 15 target courses in a single day. 30 targets total

Scoring Areas:

Scoring will be as follows:

- Circle within the 10 ring = 12 points
If multiple circles are within the 10 ring, the CENTER RING will be scored a 12.
- Circle inside the vital area = 10 points
- Vital area = 8 points
- The remainder of the animal = 5 points
- Failure to hit target (arrow does not stick in target) = 0 points
- If more than one scoring area is visible on a target, the forward or center scoring area will be scored.

Maximum Yardages:

A variance of +/- 3% will be given for the maximum yardages

Shooting Rules:

- Competitive course must be shot in sequential order. Example: start on target #3, finish on target #2.
- Shooting groups shall NOT consist solely of friends and/or relatives. The archers in a group of close friends and/or relatives are required to make officials aware of this situation. Failing to do so is considered unsportsmanlike conduct.
- In a group that contains archers shooting from different markers, the archers shooting from the farther markers must shoot first. No archer shall approach a target prior to the entire group shooting.
- When shooting, the archer must touch the appropriate marker with some part of his or her body. At times, markers will be set to challenge the archer with various shooting positions.
- Each archer shall be allowed a maximum of two (2) minutes to complete his or her shot.
- Time will begin for the first archer when the previous group clears the target. Time will begin for the next archer when the previous archer releases his or her arrow.
- After shooting, the shooter must immediately clear the marker for the next shooter. Using binoculars from the shooting marker after the shot is prohibited.
- There shall be no discussion of yardage while on a competitive course, even after retrieving arrows.
- No more than one umbrella may be used to assist a shooter at the marker. The maximum umbrella size will be a 70" arched top (typically used in golf).
- All competitive events are based on a "free-hand" style of shooting. No archer shall use any device such as shooting sticks, slings or other such accessories or shooting positions to create a "braced" shot.
- An archer may not use parts of his or her body, the bow, or any other accessories or equipment to calculate yardage.
- Once an archer begins a shooting course, he or she must finish with his or her group unless given permission to leave by a range/event official or his/her group (equipment failure). Any archer that leaves a course without the authorization from a range/event official or his/her group will NOT be allowed to continue.

- No spectators are allowed on any course with competitive shooters. Exception: A parent or guardian accompanying an archer in CUB class.

Rangefinder, Cell Phones and Binocular Rules:

- ANY devices that may be used to calculate yardage and/or angles to the target are not allowed unless it is allowed in that shooting class.
- Cell phones are ONLY to be used on a course when the group decides there is an emergency (injury, equipment failure, etc.) requiring such use OR an archer who is “on call” may answer an incoming phone call. Cell phone “texting” is NOT allowed, except to contact a course official.
- Hand-held binoculars are allowed in all classes. - Binoculars with rangefinder capability are NOT allowed. Archers may utilize binoculars from behind the shooting marker to view the target while waiting their turn or behind a group that is in the process of shooting the applicable target. Binoculars are not to be used from the shooting stake after the shot has been taken. Move from the shooting stake, then glass your shot.

Scoring Rules:

- A minimum of two scorecards must be completed for each archer.
- Scorecards must be split between two scorekeepers so that each scorekeeper has one card for each archer.
- Scoring will be judged by EVERYONE in the group (all archers must go to the target). If agreement by the majority of the group is not possible, the shooter will receive the higher score. If a split decision, shooter will receive the higher score.
- Both scorekeepers must mark ALL scorecards BEFORE ARROWS are pulled from the target. Archers should not touch arrows until scoring is complete. Arrows pulled early will receive a zero.
- An arrow touching the line (no visible gap) of a greater scoring area shall be given the higher score.
- Archers CANNOT touch the arrows or target prior to scoring all arrows.
- Arrows must stick in the target in order to receive a score other than a zero with the exception of a complete pass-through, “robin hood”, or bounce-back.
- An arrow that passes completely through a target may be scored if witnessed and agreed upon by the majority of archers in the group. If the pass-through was witnessed by a member of the group other than the shooter, and the group cannot agree, the archer may re-shoot the target before the group advances to score the target.
- All whole arrows or partial arrows that include the point, that are sticking in the target shall be scored where they penetrate the target. An arrow embedded into another arrow (Robin Hood) in the target shall be scored the same as the arrow embedded into the target.
- An arrow that hits another arrow and sticks in the target will be scored independently. If the arrow does not stick, the arrow will be scored a zero.
- A bounce-back is an arrow that squarely strikes the target and bounces back toward the shooter. An arrow that glances off the target is NOT considered a bounce-back. A bounce-back may be scored if the score can be agreed upon by the majority of archers in the group. If a member of the group other than the archer witnesses the bounce-back and the group cannot agree, the archer may re-shoot the target before the group advances to score the target. This rule (bounce-back) typically applies to Cub classes.
- An arrow released accidentally will be scored a zero unless the archer is able to retrieve the same arrow while remaining in contact with the appropriate marker with some part of his or her body and re-shoot the arrow within the two-minute time period.
- If the two scorekeepers for a group mistakenly record different scores, the inconsistent scores must be corrected as agreed upon by the majority of the group. The error must be crossed out and initialed by both scorekeepers and the correct score will be marked accordingly.
- Scorecards must be legible, complete (total score and number of 12s), and signed or initialed by the archer and scorekeepers to be accepted. Scorecards cannot be changed by a competitor or scorekeeper after submitting the scorecards to a range/event official.

- Each group's scorecards must be turned in together by the ENTIRE group. Any attempt by an archer to knowingly falsify a score, or knowingly allow another person to falsify his or her score, shall result in disqualification.
- Duplicate scorecards will not be issued to replace lost or damaged scorecards, except in unusual circumstances approved by the host club officials.
- The host club reserves the right, at its sole discretion, to correct unintentional errors including but not limited to, score tabulation, lack of initials or signature, posting, etc., which in the opinion of the host club are clearly not a result of an attempted inflation or deflation of the archer's score.

Equipment Failure:

Equipment failures must be visible and agreed upon by the majority of the group. The procedure for dealing with equipment failures shall be as follows:

1. The scorekeepers will tabulate the archer's score to that point, write "equipment failure" on the back of the scorecards of the archer with the equipment failure and sign or initial the back of the scorecards.
2. One scorecard will remain with the group and the remaining scorecard will be given to the archer.
3. If three or more archers remain in the group, they may continue shooting. If two or fewer remain, they must join the following group (so long as it does not result in a group of six or more) or step aside and wait for a range/event official before proceeding.
4. The archer with the equipment failure shall then cautiously proceed FORWARD through the course and immediately notify a range/event official. The archer will be given a time by the range official of when the repair must be completed in order to complete the course.
5. A range/event official will arrange for the archer to be escorted back onto the course to complete the course.
6. Both scorecards will be collected and marked by a range/event official.

Compliance:

Range and event officials are to be respected and have the authority to disqualify an archer from an event for unsafe behavior and/or violations of the rules. Integrity and discipline is expected of every archer. Compliance with the RULES is the responsibility of each of the archers. Host club range and event officials are not expected to be at every target for every shot.

Unsportsmanlike conduct will NOT be tolerated. Any action considered unsportsmanlike by the host club will be grounds for disqualification.
